

The Availity® Essentials **Attachments tool** allows providers to submit electronic **Recommended Clinical Review** (RCR – formerly predetermination of benefits) and attach supporting clinical documentation for Blue Cross and Blue Shield of Illinois (BCBSIL) members.

A Recommended Clinical Review (RCR) is a voluntary request for written verification of benefits prior to rendering services. BCBSIL recommends submitting a Recommended Clinical Review request if the service may be considered experimental, investigational, or unproven, as indicated within the BCBSIL Medical Policy.

You must be a registered Availity Essentials user to access and utilize the Attachments tool. If you are not yet registered with Availity, complete the guided online registration process at Availity, at no cost.

Important Reminder:

Verify the patient's eligibility and benefits online first. To learn more about checking eligibility and benefits via Availity, refer to the Eligibility and Benefits User Guide.

The information in this user guide does not apply to RCR requests for Medicare Advantage, Illinois Medicaid, or HMO Illinois® members.

Checking eligibility and/or benefit information is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, the member's eligibility and the terms of the member's certificate of coverage applicable on the date services were rendered.
